Aligarh, India

Junior Mathematics Major | Web Developer

EDUCATION

Aligarh Muslim University

Bachelor's Degree in Mathematics
Expected 2027

Relevant coursework

Programming Fundamentals, Object-Oriented
Programming, Web Development Basics

SKILLS

Languages & Frameworks:

- Java, JavaScript, HTML5, CSS3,
Django, Node.js, Next.js, React, React
Router, Tailwind CSS, Three.js

Tools & Platforms:

- Netlify, GitHub Pages, Vercel, NPM,
Vite

Design & Graphics:

- Canva, Dribbble, Figma, Inkscape,
GIMP

SOFT SKILLS

- Communication
- Problem-solving
- Time Management
- Adaptability
- Attention to Detail

PROJECTS

Portfolio Website

(React, Tailwind CSS, Typescript)

- Designed and developed a responsive portfolio website using React, effectively showcasing my projects and skills.
- Utilized TypeScript to enhance code quality and maintainability, ensuring a robust development process.

Game Collection Website

(React, tailwind CSS, Typescript, RAWG API)

- Engineered a web application to browse game collections by utilizing the RAWG API for efficient data fetching.
- Optimized API performance through effective data caching and request minimization, resulting in faster load times and improved user interaction.

EXTRACURRICULAR ACTIVITIES

University Sports Team

- Member of the university swimming team, fostering teamwork through practice and competitions..

Creative Writer

- Engaged in writing fiction and non-fiction, enhancing my writing skills through various projects.

Art Enthusiast

- Involved in various art projects, exploring different mediums to express creativity.

Tech Explorer

- Passionately explore new technologies and tools to enhance programming and design skills.
